No. KSEDC/ITS/P251/2026-27 [E-245468] 28.08.2026

Invitation for Quotation (IFQ) to Appoint Service Provider for Scanning and Digitization of Files and Records at the Department of Mines and Geology, Bengaluru Urban District

1. Sealed quotations are invited from eligible and qualified Companies / Firms to "Appoint a Service Provider for Scanning and Digitization of Files and Records at the Department of Mines and Geology, Bengaluru Urban District" in the format given below:

Sl.	Description	Quantity	Unit Rate (including all taxes) (INR)	Total Amount (including all taxes) (INR)
1	Cost of Pre-Scanning Activities	5,45,000 pages		
2	Cost of Scanning and Digitization of A4 and/or Legal size pages	5,15,000 pages		
3	Cost of Scanning and Digitization of A3 or larger size pages	30,000 pages		
4	Cost of Post-Scanning Activities	5,45,000 pages		
5	Cost of Metadata creation, cataloguing, indexing	12,000 files		
	Total cost of the project [1 + 2 + 3 + 4 + 5]			

2. Eligibility Criteria

2.1. The Applicant should be registered with the Commercial Tax Department. The Applicant should submit a copy of **GST Registration**.

3. Indicative Scope of Services to be provided by the Service Provider

3.1. General

3.1.1. Should carry out the scanning and digitization services at the office of the Senior Geologist, Department of Mines and Geology, Bengaluru Urban. The scanning and digitization work should be carried out between 10:00 AM to 05:30 PM on all Government working days. In order to complete the tasks within the stipulated time, the Service Provider may have to work for longer hours and on holidays with the permission and instruction of the Senior Geologist.

3.1.2. Should carry out the task of quality scanning, digitization, storing, uploading and indexing within the given timelines.

3.1.3. The process of digitization involves retrieval of the files and/or records from the storage place, open the bundles / files, remove the file tags and/or staple pin, Scanning each page, digitizing, indexing, uploading, restapling/retagging of files/records, marking the physical, hand over to the authorized staff for re-storage.

3.1.4. Should properly and securely maintain the files and/or records and/or documents before, during and after digitization and return the same to the authorized officer on a daily basis. A log register should be properly maintained detailing all the movement of documents and/or records and/or files and should be returned with all the pages intact and secured.

3.1.5. The quality and clarity of scanning should be as per the decision of the Department and will be regarded as final. Scanned images should not be less than 150 to 200 dpi resolution, gray scale or as instructed by the Department.

3.1.6. The scanned images to be saved in PDF form file wise and/or record wise and/or as instructed by the Department. It should be accessible as required by the Department.

3.1.7. In case of torn and fragile documents which cannot be fed into the scanner, the same should be scanned using an overhead book scanner or as instructed by the Department.

3.1.8. Should impart training to the Department staff regarding various digitization process including scanning, digitizing, indexing, uploading and retrieval in the software and/or eoffice and other related activities.

3.1.9. The Service Provider shall maintain utmost confidentiality and will be responsible for any data breach.

3.1.10. Should provide good quality and sufficient numbers of highspeed scanners, overhead scanned, flatbed scanners, computers, servers, LAN networking, skilled staff, etc. at the Department location.

3.1.11. Any unfinished work, left-out work, error rectifications, etc. which may be identified either during or after the contract period, shall be completed by the Service Provider within the same scope of contract agreement at no additional cost.

3.1.12. Scanned images and pdf should be compatible with the eoffice application and any other document management system provided by the Department. It is the responsibility of the Service Provider to test check this compatibility first before going for full scale scanning and digitization.

3.1.13. The indicative quantities are as given below:

[The quantities stated in this RFP are indicative only and shall be used for determining the "total cost of the project". The actual quantities may vary. The quantity of A3 or larger size pages mentioned in the RFP is only a rough estimated figure. The actual count of A3/A2/A1 size pages shall be determined based on the physical files during the scanning and digitization process.]

3.1.13.1. Total indicative number of files - 12,000 files

3.1.13.2. Total indicative number of pages - 5,45,000 pages

3.1.13.3. Total indicative number of A4 and/or Legal size pages - 5,14,000 pages

3.1.13.4. Total indicative number of A3 or larger size pages - 30,000 pages.

3.1.14. The scanning and digitization activities shall be mandatorily carried out only at the office of the Department of Mines and Geology, Bengaluru Urban and not at multiple office locations.

3.2. The scanning and digitization procedure shall be as given below:

3.2.1. Pre-Scanning activities

3.2.2. Scanning and digitization activities

3.2.3. Post-Scanning activities

3.2.4. Metadata creation, cataloguing and indexing

3.3. Pre-Scanning activities

3.3.1. File identification

3.3.1.1. The Department shall provide the files, records and documents which are to be scanned and digitized.

3.3.1.2. The documents may be tagged and/or pinned. It shall be the responsibility of the Service provider to untag and unpin the files, records and documents.

3.3.1.3. The page size shall be A4, Legal, A3 or higher.

3.3.2. Receiving the files

3.3.2.1. Should receive the files, records and documents from the authorised officer from the Department.

3.3.2.2. Should carry out Cleaning, Dusting and Fumigation of Documents.

3.3.2.3. Should mark Page number at the bottom of the page for noting and corresponding side papers. Numbering has to be done for all pages. Should cross check the page numbers to verify the numbers captured are in sequence for all pages.

3.3.2.4. Department staff shall make an entry in the log register while handing over the files, records and documents.

3.3.2.5. Each file, record and document handed over shall be tracked using a unique ID.

3.3.2.6. Shall carry out verification of the quality of files, records and documents, bring it to the notice of the Department and record in the log register.

3.3.2.7. Under NO circumstances shall the documents be changed or mutilated or destroyed or replaced by some other documents.

3.3.2.8. Inward the documents in the log register as follows:

3.3.2.8.1. Name of the document collected.

3.3.2.8.2. Number of pages in the document (A4 / Legal / A3 / A2 / A0 / others)

3.3.2.8.3. Greyscale or color scanning

3.3.2.8.4. Collected from (Department Official Name)

3.3.2.8.5. Collected by and Signature (Service Provider representative)

3.3.2.8.6. Date of collection

3.3.2.8.7. Expected date of return

3.3.2.8.8. Returned to (Department Official) – Name and Signature

3.3.2.8.9. Returned by (Service Provider representative)

3.3.2.8.10. Actual date of return

3.3.2.9. Should ensure that the number of pages in each file is accurately captured and is cross-checked with the number of pages scanned. Should maintain order of documents without disturbing the chronology of the documents and without mixing pages between different documents. In case of unavailability of required documents or pages missing or documents missing, it should be immediately brought to the notice of the Department Official. During the pre-scanning stage, the page numbers should be marked manually, using self inking automatic numbering machine in sufficient quantities.

3.3.2.10. Generally, the documents will be provided in a condition that can be scanned. In case of the document condition not suitable for scanning it is the responsibility of the Service Provider to immediately bring it to the notice of the Department Official.

3.3.2.11. Service Provider shall provide the name, designation and ID of their staff authorised to receive the files, records and documents from the Department. The Department will also provide details of the authorized staff who will hand over and receive back the files, records and documents.

3.3.2.12. Shall ensure that the files, records and documents handedover to the Service Provider shall not leave the Department premises.

3.3.3. Batch Preparation

3.3.3.1. Each paper page is prepared for scanning by De-filing, De-stapling, removing paper clips, Unbinding, Smoothing edges, orienting direction, Segregating and sorting documents, Pasting of torn documents and physical preparation of Documents.

3.4. Scanning and digitization activities

3.4.1. Use of Sheetfeed Scanners, Overhead scanners, Flatbed Scanners

3.4.1.1. The Service Provider shall provide and ensure that depending upon the nature and quality of documents the Service Provider shall deploy Sheetfeed scanners or Overhead scanners or flatbed scanners, as the case may be. The choice of scanners depends completely on the condition of the document. The number of the scanners to be deployed depends on the requirement.

3.4.1.2. The Service Provider shall provide and ensure that in case the document is very torn and cannot be fed in the sheet feeder, then a flatbed scanner should be used. In case the document cannot be scanned using any type of scanner, the Service Provider shall provide and use digital camera as image capturing device.

3.4.2. Unique file ID and scanning format

3.4.2.1. Unique file ID should be marked on all the files before scanning. Unique file ID should be marked on the file cover (including Front File Cover, Back File Cover and Internal Noting pages). Each page is scanned and all the pages in the file are stored as one digital file in searchable formats (PDF/A) (ISO 19005-1:2005) using appropriate scanners with high quality document and image results. Scanning to be done on 150-200 DPI resolution grey scale and/or color. Each page, to be scanned, shall be in "English" or in "Kannada" or in "combination of both English and Kannada" languages. The digital file (in searchable formats (PDF/A) (ISO 19005-1:2005)) should be searchable in both English and Kannada languages, as per the language(s) present on the respective pages.

3.4.2.2. In case the document is not visible then document scanning shall be done in gray scale. The images are stored under PDF/A format with maximum image quality with minimum storage capacity. In case the documents are not legible it needs to be scanned on high resolution i.e. 600 dpi or higher.

3.4.3. All pages in the file are required to be scanned.

3.5. Post-scanning activities

3.5.1. Quality Control of scanned documents, pages

3.5.1.1. Quality of the scanned images for skewing, de-skewing, de-speckling, cropping, removing black noise around the text, cleansing of images, straightening, conversion to PDF/A (ISO 19005-1:2005) format, etc. shall be carried out by a separate team of operators other than the scanning team. The scanned image should be a replica of the original document.

3.5.1.2. Should ensure that the latest licensed software for Quality Check is used.

3.5.1.3. The generated PDF/A should be optimized for viewing over the internet, i.e., pages should be viewable as soon as they are downloaded without waiting for the complete file to be downloaded. A multipage file is downloaded page-by-page and should be viewable as soon as a page is downloaded rather than having to wait for the entire file to download.

3.5.1.4. Scanned image generated after adequate compression should be legible in both soft format and printed copy taken on paper in 1:1 scale. If the scanned document is not legible then it shall be the Service Provider's responsibility to rescan the documents at higher resolution.

3.5.1.5. Should ensure that the digitized document is the exact replica of the original paper document maintained as part of the records file.

3.5.1.6. Should ensure the following Quality check:

3.5.1.6.1. The Image should not be too dark / too light.

3.5.1.6.2. The Image should not have been captured under improper lighting.

3.5.1.6.3. The Image should not have been cropped from any side.

3.5.1.6.4. The orientation of the image should be right.

3.5.1.6.5. The colour is consistent in all the images and not patchy.

3.5.1.6.6. The image should not be skewed.

3.5.1.6.7. The image should not be blurred.

3.5.1.6.8. There should not be any data loss due to folds.

3.5.1.6.9. There should not be any data loss due to tight binding and bulge at the centre.

3.5.1.6.10. There should not be extra darkness at the edges.

3.5.2. Refilling and handing over the files

3.5.2.1. After the scanning, the digital files will be tagged and stored in the drive as well as in the data backup device. Should take backup of incremental data at the end of the day. The backup shall be taken on a secure external backup storage for data retrieval in case of emergency. Should ensure data security and confidentiality while taking back up.

3.5.2.2. After scanning, the physical document should be filed together / tagged in the same form as it was given for scanning by the Department at the beginning.

3.5.2.3. Each page shall be serially arranged and shall be counted while giving the documents back.

3.5.2.4. Should maintain and return the documents in their original form to the Department.

3.5.2.5. In case of any damage to the documents, the Service Provider shall be liable for penalty as specified.

3.5.2.6. Should maintain outward log for files returned back to the Department. Should maintain records of Issue / Return of files/ Documents in the log register along with datetime stamps and signature for keeping track of the flow of files/documents and get the same countersigned by the Department representative while collecting and returning the files/documents.

3.6. Metadata creation, cataloguing and indexing

3.6.1. Folder structure and File names

3.6.1.1. The scanned files shall be given proper file names as per the Department approved format. The scanned files shall be stored in proper folder tree structure as per Department approved format.

3.6.2. Metadata, cataloguing, indexing

3.6.2.1. For each of the scanned files, the Service Provider shall create metadata, keywords, file cataloguing, indexing, etc. as per the Department approved formats.

3.6.2.2. Based on the guidelines and provisions contained in the "Digitisation Framework Document" for e-office pertaining to digitisation, metadata creation, indexing, storage and integration with e-Office, the following metadata fields are proposed for the Department of Mines and Geology, Bengaluru Urban.

3.6.2.3. The Metadata Fields for Active Files are as given below:

3.6.2.3.1. File No.

3.6.2.3.2. Quarry Lease No

3.6.2.3.3. Applicant / Lease / Crusher name

3.6.2.3.4. Subject Description

3.6.2.3.5. Taluk

3.6.2.3.6. Hobli

3.6.2.3.7. Village

3.6.2.3.8. Survey No

3.6.2.3.9. Keywords for Search

3.6.2.3.10. Created date

3.6.2.3.11. Document Type

3.6.2.3.12. Page Size & No

3.6.2.3.13. File status
3.6.2.3.14. Remarks

3.6.2.4. The Metadata Fields for Closed Files are as given below:

3.6.2.4.1. File No.
3.6.2.4.2. Quarry Lease No
3.6.2.4.3. Applicant / Lease / Crusher name
3.6.2.4.4. Subject Description
3.6.2.4.5. Taluk
3.6.2.4.6. Hobli
3.6.2.4.7. Village
3.6.2.4.8. Survey No
3.6.2.4.9. Keywords for Search
3.6.2.4.10. Document Type
3.6.2.4.11. Page Size & No
3.6.2.4.12. Created date
3.6.2.4.13. Closed date
3.6.2.4.14. File status
3.6.2.4.15. Closing Remarks

3.6.2.5. The Metadata Fields for Archive Files are as given below:

3.6.2.5.1. File No.
3.6.2.5.2. Quarry Lease No
3.6.2.5.3. Applicant / Lease / Crusher name
3.6.2.5.4. Subject Description
3.6.2.5.5. Taluk
3.6.2.5.6. Hobli
3.6.2.5.7. Village
3.6.2.5.8. Survey No.
3.6.2.5.9. Keywords for Search
3.6.2.5.10. Document Type
3.6.2.5.11. Page Size & No
3.6.2.5.12. Created date
3.6.2.5.13. Closed date
3.6.2.5.14. Closing Remarks
3.6.2.5.15. Archived By
3.6.2.5.16. Archived On
3.6.2.5.17. Archived Remarks
3.6.2.5.18. File status

3.6.2.6. The above metadata fields are indicative and should be customized and/or expanded based on Departmental requirements during the project.

3.7. Transfer of data to eoffice and/or Department system

3.7.1. Should upload each of the digitized files into the eoffice system and/or Department's system as per the requirement of the Department.

3.8. Backup and Restore

3.8.1. It shall be the responsibility of the Service Provider to ensure that daily backups of the scanned documents and files are kept at all stages of the project.

3.8.2. In case of data loss of scanned images, for any reason whatsoever, during the contract period, it shall be the responsibility of the Services Provider to once again carry out the scanning and digitization of the lost data at no additional cost.

3.8.3. It shall be the responsibility of the Service Provider to verify the data backup by carrying out periodic data restoration.

3.9. Others

3.9.1. The Service Provider shall ensure that maximum number of scanners, computers, manpower, etc. are deployed at the Department site to complete the project within the contract period at no additional cost.

3.9.2. The Service Provider shall ensure that the scanners, computers, etc. are in good working condition at all times during the contract period. Any not working items should be immediately replaced with equivalent or better good working condition items at no additional cost..

3.9.3. Should carry out the scanning activities within the premises of the Department.

3.9.4. Should prepare and submit daily, weekly, monthly and overall progress reports to the Department.

3.9.5. The Service Provider shall bring, setup and operate computers, servers, scanners, software, tools for pinning & unpinning, licenses, LAN cabling, connector cables, power chords, adapters, UPS, printers, consumables, etc. and any other items required to successfully complete the scanning and digitization project, at no additional cost.

3.9.6. Should ensure that no third party or public shall be allowed to enter the designated area.

3.9.7. Should not scan any other documents or files other than the files and documents provided by the Department for scanning.

3.9.8. Should provide training to the Department staff.

3.9.9. Blank pages scanned shall not be counted and shall not be considered for payment.

4. Facilities provided by the User Department

4.1. The Department of Mines and Geology, Bengaluru Urban shall provide the following:

4.1.1. Office space, office furniture and electricity.

4.1.2. The Internet bandwidth / connectivity required for uploading digitized files into e-Office and/or the Department's application will be provided by the Department of Mines and Geology, Bengaluru Urban.

5. Service Level Agreement (SLA)

5.1. The Service Level Agreement (SLA) along with SLA type, resolution and penalty is as given below:

Sl.	SLA Area	Resolution Time	Penalty for delay after Resolution Time
1.	Delay in submission of deliverables	Within T+5 working days from the deadline date, the deliverables should be submitted	"Rs. 2,000 per day per deliverable delayed after resolution time" or "amount of liquidated damages" whichever is higher
2.	Entire project stopped	Project should be restarted within T+1 working day	Rs. 10,000 for each working day of delay after resolution time
3.	Partial (one of more) resources provided by the Service Provider	Replacement should be provided within T+3	Rs. 1,000 per resource per working day of delay

Sl.	SLA Area	Resolution Time	Penalty for delay after Resolution Time
	(computers, servers, scanners, software, tools for pinning & unpinning, licenses, LAN cabling, connector cables, power chords, adapters, UPS, printers, consumables, etc.) is/are not working	working days	after resolution time

6. Intellectual Property Rights

6.1. The Intellectual Property Rights of the source code, web application, mobile application, database, documentations, trademark, patents, etc. shall be owned by the Purchaser.

7. Payment Terms

7.1. 100% of the contract value shall be released after the successful completion of the project and certification of the completion by the Department of Mines and Geology, Bengaluru Urban.

7.2. The Service Provider shall submit invoice after the completion of the project and after the certification of the completion by the Department of Mines and Geology, Bengaluru Urban.

7.3. The Client shall release the payment to the Service Provider, only after the receipt of the corresponding payment from the Department of Mines and Geology, Bengaluru Urban.

8. Contract Period

8.1. The contract shall be for a period of two (2) months.

9. Quoted Price:

9.1. The Applicant shall quote for items in the format of quotation attached.

9.2. All duties, taxes and other levies payable by the tenderer (including GST) shall be included in the quotation.

9.3. The rates and amount quoted shall be fixed for the duration of the contract and shall not be subject to any adjustment.

9.4. Rates for supply of partial requirements is not acceptable.

9.5. Corrections, if any, shall be made by crossing out, initialing, dating and rewriting.

9.6. Cable or Facsimile quotations are not acceptable.

10. Each tenderer must submit only one quotation.

11. Validity of quotations:

11.1. The quotation shall remain valid for a period not less than 60 days after the deadline fixed for submission of quotations.

12. Evaluation of quotations:

12.1. The Purchaser will evaluate and compare the quotations determined to be substantially responsive i.e., which are properly signed, and conform to the terms and conditions and specifications in the following manner:

12.1.1. The evaluation will be done including all taxes. If the tenderer has not included the taxes in his quotation for the item rate, and has also not indicated the rate of taxes applicable, the quoted rate will be treated as though it is inclusive of taxes and no extra payment for taxes will be made

12.1.2. The evaluation would be done for all the items put together. The items for which no rates have been quoted would be treated as zero and the total amount would be computed accordingly. The tenderer who has quoted for partial quantity of any one or more item(s) would be treated as non-responsive. The Purchaser will award the contract to the responsive tenderer, whose total cost for all the items put together is the lowest.

13. At any time during the IFQ process, the Client reserves the right to cancel the IFQ process and/or reject all the proposals received in response to the IFQ.

14. Notwithstanding the above, the Purchaser reserves the right to accept or reject any quotations and to cancel the quotation process and reject all quotations at any time prior to the award of the contract.

15. Last date and time of receipt of quotations:

15.1. You are requested to submit the sealed quotations superscribed on the envelope **"Invitation for Quotation (IFQ) to Appoint a Service Provider for Scanning and Digitization of Files and Records at the Department of Mines and Geology, Bengaluru Urban District"** on or before 02.08.2026.
